## GLOBAL WARNING AND THE PANDEMIC!!

We are certainly living in interesting times; that is to say amidst the dangers of the covid-19 outbreak. Very scary times, extremely difficult times, especially for poor and underprivileged people. All over the globe. Sometimes mesmerizing, moment's of unbelief, and a lot of self-examination taking place. In fact, this pandemic-world health catastrophe- has shown us how our health and our very existence is interwoven into each other's lives worldwide. Thank God for the Physicians, PA's, Nurses, EMT's Firemen, Policemen, Janitors, and all those in related fields and many more out front putting their lives in harm's way. We at UAF salute you!

However, at the same time we can't, in fact it would be impossible not to, emphasize how this virus has impacted those ill prepared, and impoverished communities, many of whom have succumbed to death. Much of this is caused by the social and economic disparities which are so prevalent in our world (more on this later).

The Cause: Whether etched on by "greed" or "carelessness" or, God forbid, some deliberate act,

“Our very  
existence  
is interwoven  
into each other  
lives”

this is bigger than anything most people could have imagined. And it has become evident this virus is elusive, deadly and increasingly hard to stop.

Also, it appears our immune system for the most part is incapable of fighting off this pathogen, (this invading enemy).

**U.A.F. 2020:** One overriding effect of this coronavirus pandemic is that it has unequivocally shown the vast socioeconomic disparities in health and health care, and the income gap that exist in our world. And how it affects different segments of the population. For instance, those within a higher income bracket can practice social distancing, washing hands regularly, work from home, and self-quarantine at far greater levels than those trying to survive on minimum wage.

## ***FULLFILLING OUR MISSION***

### **URBAN ARTS FUSION**

#### **OUR MISSION:**

Remember: Art has not been cancelled  
Music has not been cancelled  
Creativity is very alive.  
(innovation, initiative, intuition,  
Discovery). **God is yet alive!**

In fact our mission to seek out latent or dormant talent, has never been more relevant. Creativity brings about self-worth, self-worth, confidence, and confidence in one's abilities generates great inward strength, enabling us to build strong character and produce great things. **BE ENCOURAGED!**

## **WORDS WE NEED TO KNOW**

**ANTIGEN**

---

**PATHOGEN**

---

**ORGANISM**

---

**VIRUS**

---

**ANTIBODY**

---

**IMMUNE  
SYSTEM**

---

**Antigen:** *An antigen is any substance that causes your immune system to produce anti bodies against it. This means your immune system does not recognize the substance, and is trying to fight it off.*

**Pathogen:** *A bacterium, virus, or other microorganism that can cause disease.*

**Organism:** *An individual animal, plant or single-celled life form. (humans are multicellular organisms).*

**Virus:** *Is a small infectious agent that is able to multiply only within the living cells of a host.*

**Antibody:** *A blood protein produced in response to and counteracting a specific antigen.*

**Immune System:** *Is a host defense system comprising many biological structures and processes within an organism that protects against disease*

## URBAN ARTS FUSION

### Looking Ahead

-Let's Not Marginalize Ourselves

1. Promote togetherness
2. See a Need Fulfill It.

-Raise the General Level of Enthusiasm

1. Explore Art as weapons for change.
2. Targeted Response - Real Time Productivity.

We welcome your comments and/or feedback.  
Please feel free to submit articles for possible  
publication.

Artwork and Poetry appreciated.
